1

Expect a text or phone call directly from the pharmacy and have your prescription drug insurance information handy.

It is important that you answer so your treatment is not delayed.

- If you don't receive a call or text within 48 hours, reach out to the selected pharmacy.

2

The pharmacy will complete any paperwork needed with your doctor and apply applicable savings.

3

If a copay is needed, the pharmacy will reach out and ask you for payment. The prescription will not ship until payment is received.

4

The pharmacy will work with you to arrange delivery to your home or local pharmacy.
